7.2 BEST PRACTICE: II

FOCUS: MULTI DISCIPLINARY SEMINAR SERIES

BEST PRACTICE II: FOCUS: MULTI DICIPINARY SEMINAR SERIES

Best Practice-II

Title of the programme: **'FOCUS'**-The Multidisciplinary Seminar Series

FOCUS seminar series is a regular annual academic programme of Sree Narayana College, Kannur since 2010 which includes academic discourses of 14 prestigious departments of the college which has been strengthening the quality of the students to reach academic excellence. Focus is organised by Internal Quality Assurance Cell and Parent Teacher Association in academic collaboration with Kerala State Higher Education Council.

Objectives of the Programme:

- To provide a platform for the students and faculties to share and discuss their research findings and perspectives on various topics, enhancing collective understanding.
- To encourage interdisciplinary collaborations by bringing together different academic disciplines promoting a diverse range of viewpoints and methodologies.
- To promote an interdisciplinary approach to education by integrating diverse subjects into discussions, aligning with the National Education Policy (NEP) 2020.
- To enhance critical thinking and problem-solving skills among the participants by engaging in discussions that challenge their thinking and encourage them to explore creative solutions to real-world issues.
- To motivate the students to discover inspiration from others' ideas and come up with new thoughts or solutions.
- To improve the communication abilities of the students as it involves presentations and discussions, which helps the participants refine their oral and written communication skills.
- To help the students to improve their discussion skills by using rich vocabulary, appropriate register, and clear, engaged voice modulation.
- To build professional connections as the programme allows participants to network with peers, experts, and practitioners in their field, fostering collaborations that can extend beyond the seminar itself.
- To showcase cutting edge research through featuring presentations from leading researchers, providing insights into the latest developments in various fields.

- To support emerging Ph.D research scholars by offering them opportunities to present their work and receive feedback from established academics.
- To serve as platforms for brainstorming and discussing various academic skills, which can lead to meaningful research projects.
- To engage with the real-world issues by focusing on current societal challenges, encouraging participants to apply theoretical knowledge in practical contexts.
- To include practitioners and policymakers, bridging the gap between academic research and practical application in various sectors like education, arts, and community services.

The Context

The multidisciplinary seminar series contribute to create a rich learning environment that benefits participants academically and professionally. The seminar series as a best practice within colleges not only aim to elevate the academic standards through faculty training but also actively engage students in vital societal issues while promoting research and community involvement. Conducting multidisciplinary academic seminar series in colleges serves the following crucial purposes that enhance the educational and research environment:

- Facilitating Knowledge Exchange
- Creating valuable networking opportunities for participants
- Promoting inclusivity by drawing participants from diverse backgrounds and disciplines
- Addressing real world issues
- Enhancing research quality

Evidence of Success

- Both students and faculty members had direct access to industry experts and thought leaders, allowing them to gain specialized knowledge on specific topics.
- The programme helped the students who presented their papers in seminar to enhance their oral communication abilities. They learn to articulate their ideas clearly, listen actively, and engage in constructive debates which is crucial for building confidence and preparing for future professional interactions.
- The programme helped the students to develop their soft skills such as teamwork, problem-solving, and adaptability. These skills are vital for success in both academic and professional settings.

- It is evident that the programme has created interest in research among students as many students who attended the annual Focus seminar series regularly, have enrolled for Ph.D programme after completing post-graduation from the college.
- Many students who presented the papers in Focus seminar had published their research papers in Journals.
- The faculty members were able gain access to insights from subject matter experts, allowing them to deepen their understanding of specific topics and incorporate this knowledge into their teaching practices.
- On successfully organizing the seminar series it helped to boost the confidence of faculty members and student organizers in their abilities to lead discussions, manage events, and present information effectively.

Problems Encountered and Resources Required

- Securing reputable speakers is essential for the seminar's credibility and appeal. However, prominent academics often have busy schedules and may decline invitations due to prior commitments.
- Choosing the right date and time for the seminar is critical. As there were university examinations and other academic commitments choosing the right date and time for conducting the seminar was little cumbersome task.

Conclusion and Future Directions

In conclusion, the Focus seminar series that is being annually conducted at our college successfully fostered an environment of learning and engagement among students and faculty alike. The diverse range of topics covered not only enhanced participants' knowledge but also encouraged critical thinking and collaboration. Feedback from attendees highlighted the effectiveness of interactive sessions and expert guest speakers, suggesting a strong appetite for more such initiatives in the future. Moving forward, we aim to expand the seminar series by incorporating more interdisciplinary themes and hands-on workshops to cater to a wider audience. Additionally, leveraging technology to facilitate virtual participation will ensure inclusivity and accessibility for all students, regardless of their circumstances. By continuously refining our approach based on participant feedback, we hope to create an even more enriching experience that prepares our students for the challenges of tomorrow.

FOCUS 2023
Multi disciplinary Seminar Series

Sir/Madam

Sree Narayana College, Kannur is one of the biggest institutions of higher education in Kannur district. The college was founded in the name of his Holiness Sree Narayana Guru, the greatest saint and social reformer. The founder manager, Late S. Sankar made pioneering efforts to start a group of institutions named after Sree Narayana Guru with the intention of imparting quality education to students without any discrimination on the basis of class, caste or gender. The college was formally inaugurated on 6th July 1960.

From its status as a junior college, it has now grown to a full fledged post graduate college with affiliated research centres in its post-graduate departments of Zoology, Chemistry and Commerce and in US department of Botany. The college offers 12 UG Programs and seven PG programmes and is re-accredited with NAAC 'A' Grade in the second cycle.

The college concentrates on various academic and non-academic programmes to realize the potential of the students by providing creative spaces to provide academic liberty so as to involve in critical enquiry for exchange of ideas without any fear, favour or hesitation. FOCUS seminar series is a regular annual academic programme of our college since 2010 which includes academic discourses of various prestigious departments of the college which has been strengthening the quality of the students to reach academic excellence.

FOCUS 2023 is organized by Parent Teacher Association and Internal Quality Assurance Cell in academic collaboration with Kerala State Higher Education Council. There will be 17 presentations of academic scholars from different universities and institutions with an intention to accelerate the interest of the students in the contemporary realm of learning.

With immense pleasure we welcome you all to FOCUS 2023 seminar series scheduled from 15th to 27th February 2023. We expect your wholehearted support for this programme.

Thank you
With Regards
Dr. K. Ajayakumar (Principal)
